DIDAX MEDIA PRESENTS

UNIFIX® SOFTWARE

A Clear Connection

Learning by doing with hands-on manipulatives... helps children understand how numbers work. Special educators rely on UNIFIX® to help students make the right connections for math success. The next connection is here.

Unifix® Software, from the makers of UNIFIX®, is a new concept in software. It has been designed by educators for use by children with a wide range of abilities. Teachers use Unifix® Software to create activities for their students.

Built-in single switch access. The program is fully accessible with the mouse, or for children using single switch controls, Unifix® Software has built-in features for immediate single switch interface.

Now, when it is time for hands-on instruction, math is for everyone!
